CCTV Monitoring by Absolute

We all know that CCTV Systems are a great deterrent to potential thieves and also to catch them subsequently. However, we can now also use them to monitor our guard's activities at your site by getting on-line access. In this, we get an access of cctv installed at your premises and through which we can live view our guards and also download the file for a particular period. Then subsequently we can send you a weekly report on all the activities the guard was expected to perform e.g. frisking or making entries in the register etc. Like recently Hotel Silver Oaks was facing problem in their grocery purchases. Guards used to take the material from the vendor without weighing it, in spite of briefing him. To solve this recurring problem we installed the cctv at the premises of Hotel Silver Oaks on a very reasonable cost. Now, we download the data for a week and select one day on a random basis and give a report on whether guard is taking all the grocery items after proper weighing or not. Client is peaceful that guards are for sure weighing all the material that is supposed to be weighed.

All this comes at very small cost. Kindly call Mr. Pramod Dubey at +91-9811643150 to know more about it.

Monthly Report

From the month of July, we have begun with a monthly report which will cover the following important points:-

1. **ESI/PF Details:** This ensures whether the guard deployed on the post is covered under ESI & PF as per the Govt. policy.
2. **Post Duty Manual (PDM):** PDM explains the detailed job description of the guard at the post deployed.
3. **Surprise Check on Holidays & beyond Working Hours:** Random checks done during the period guards are likely to be least likely to perform duties well.
4. **Client Feedback:** We will give you details of the feedback signed by you.
