We at Absolute Security have introduced an automated process for the deployment of Security Guard/ Housekeeping staff at the sites. **The process consists of major 30 checks** done before and after any guard is deployed at any site. All these checks are done for each and every new deployment. All this is done for the smooth deployment and functioning of security guards/ housekeeping staff at all our sites.

This major implementation has been done in collaboration with Mr Sanjeev Jain's firm, CEOITBOX, and we are thriving towards the implementation of automation across all our organization's processes.

Our services are not just limited to providing our clients with well-trained security staff but also to ensure that our appointed personnel are delivering the expected services.
