

Absolute Express

October - December '24 (Vol. XXXVII)

On the 29th Annual Day, Absolute Honors Employees with Special Rewards

In a grand celebration of its 29th Annual Day, Absolute Security, a leader in providing innovative security solutions, honored its dedicated employees with special rewards to recognize their exceptional contributions throughout the year. The event, which took place at Twenty-Acre Site (The Garden of Five Senses), served as a moment of appreciation for the hard work and commitment of the team that has driven the company's success.

Recognition of Excellence

The celebration's highlight was the awards ceremony, which is a moment for us to express our gratitude to those who have gone above and beyond in their roles, demonstrating excellence, teamwork, and commitment throughout the year. Whether it's through exceptional performance, leadership, or innovation, these employees have made a lasting impact on the company and the clients we serve.

Inspiring Employee Stories

Throughout the event, several employees shared their inspiring journeys within the company. These stories showcased how Absolute Security nurtures talent and provides growth opportunities. Many employees highlighted how they had advanced in their careers through the company's mentorship programs, ongoing training, and leadership development initiatives.

Team Spirit and Celebration

The event was a perfect blend of recognition, celebration, and team spirit, where employees from different departments came together not only to honor individual and team achievements but also to foster a stronger sense of community. It was more than just an awards ceremony—it was a moment to celebrate collective success and to build deeper connections across the organization.

Families were also invited, making the occasion even more special, as employees could share their work achievements with their loved ones. The relaxed atmosphere encouraged mingling, allowing employees to connect with colleagues they might not interact with regularly in the office.

Looking Ahead to the Future

As Absolute Security looks toward its future, the focus remains on continuous growth and innovation. With a commitment to expanding its services and advancing security technology, the company is dedicated to providing both its clients and employees with the best possible outcomes. The MD also shared the company's ambitious plans for the coming years, including new leadership initiatives and expanded training programs to ensure employees continue to thrive in their roles.

Know your process

Customized Video Training for Enhanced Staff Understanding at Absolute Security (Video PDM)

At Absolute Security, we've enhanced our training process by creating **customized video-based training** for our staff, tailored to specific client needs. While Post Duty Manuals (PDMs) are useful, we found that videos, combined with clear visuals and instructions, have a greater impact, especially for complex tasks like operating a Diesel Generator or using fire extinguishers. This approach ensures that guards and housekeeping staff not only hear but also see the procedures in action, improving retention and performance. We offer this cost-effective solution to ensure excellent service delivery and complete client satisfaction.
