Audit of Registers at your premises

Absolute conducts a monthly process of checking and auditing the registers maintained at the client's premises. All registers maintained by the guard at your location will be reviewed by our field officer. Any errors identified will be corrected and reported to the concerned person. The field officer will then confirm to Absolute that all registers are being properly maintained.

Additionally, an auditor from our company will perform a sample audit and submit a report directly to our top management. A monthly report summarizing these findings will also be shared with you.
